

First Tattoo Decision Guide

Before you book

Start with healed photos in your style. Ask how the consult works, whether the artist is licensed, and how they plan for Las Vegas sun on your placement.

Eat a meal, hydrate, sleep, and wear comfortable clothing. Avoid alcohol for 24 hours before. Bring ID. Nevada requires valid ID proving you are 18 or older.

Match the work to the artist

Joshua Cole: black and grey realism, portraits, sleeves, and cover-up or rework projects.

Teralyn: fine line, floral, script, and small detailed tattoos.

Katelyn Cole: piercing, ear curation, and jewelry fit.

Price and the quote

The studio quotes by project after a consult: size, detail, placement, and how many sessions the piece needs. Ask for a quote instead of expecting one flat menu.

Small pieces have a studio minimum that covers setup, sterile supplies, and artist time.

If you are visiting Las Vegas

Read the desert aftercare guide before a trip tattoo. Sun, pools, sweat, and dry air change the heal. The studio is open daily from 12 PM to 12 AM.
